1. Claims 15 and 16 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose the claimed known initiator comprising a pair of electrodes integrated together via an insulator, a bridge wire connected between the pair of electrodes and adapted to generate heat when energized and a bottomed tubular capsule accommodating the bridge wire and an explosive which detonates in response to heat generation of the bridge wire; and further comprising a recess formed in a central portion of a bottom wall of the capsule, and a plurality of concentric grooves are formed around the recess in such a manner that an inner groove has a width and a depth greater than those of an outer groove. Or further comprising a spiral groove formed in such a manner that the spiral groove starts from the recess and the spiral gradually decreases in width and depth toward an outer circumferential portion of the bottom wall.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
